# Products for Hygiene, Treatment and Care

## Curaderm® Fitted Stretch Mattress Cover

Transparent protective mattress cover, for the care of bedridden and incontinent patients; also to maintain bed hygiene with small children.

The fine, soft and elastic stretch cover is fitted in the same manner as a fabric one. The material does virtually not rustle and protects in two ways beneath the textile sheet: from below against germs, dust and allergenic particles from the mattress; from the top sweat, saliva,

urine etc. cannot penetrate the mattress.

Curaderm Fitted Stretch Mattress Covers are breathable and temperature balancing, i.e. although liquids cannot pass the foil, moisture exchange in the form of water vapour is not inhibited.

Heel and Elbow Padding

Extremely fine transparent film – 100% polyurethane; washable up to 60°C, tumble drying up to 60°C. Generally it is sufficient to simply wipe the cover with soapy water or a disinfectant.

<b>Curaderm® Fitted Stretch Mattress Cover</b>		
	REF	Shipping Units
