# Rosidal® 1C NEW

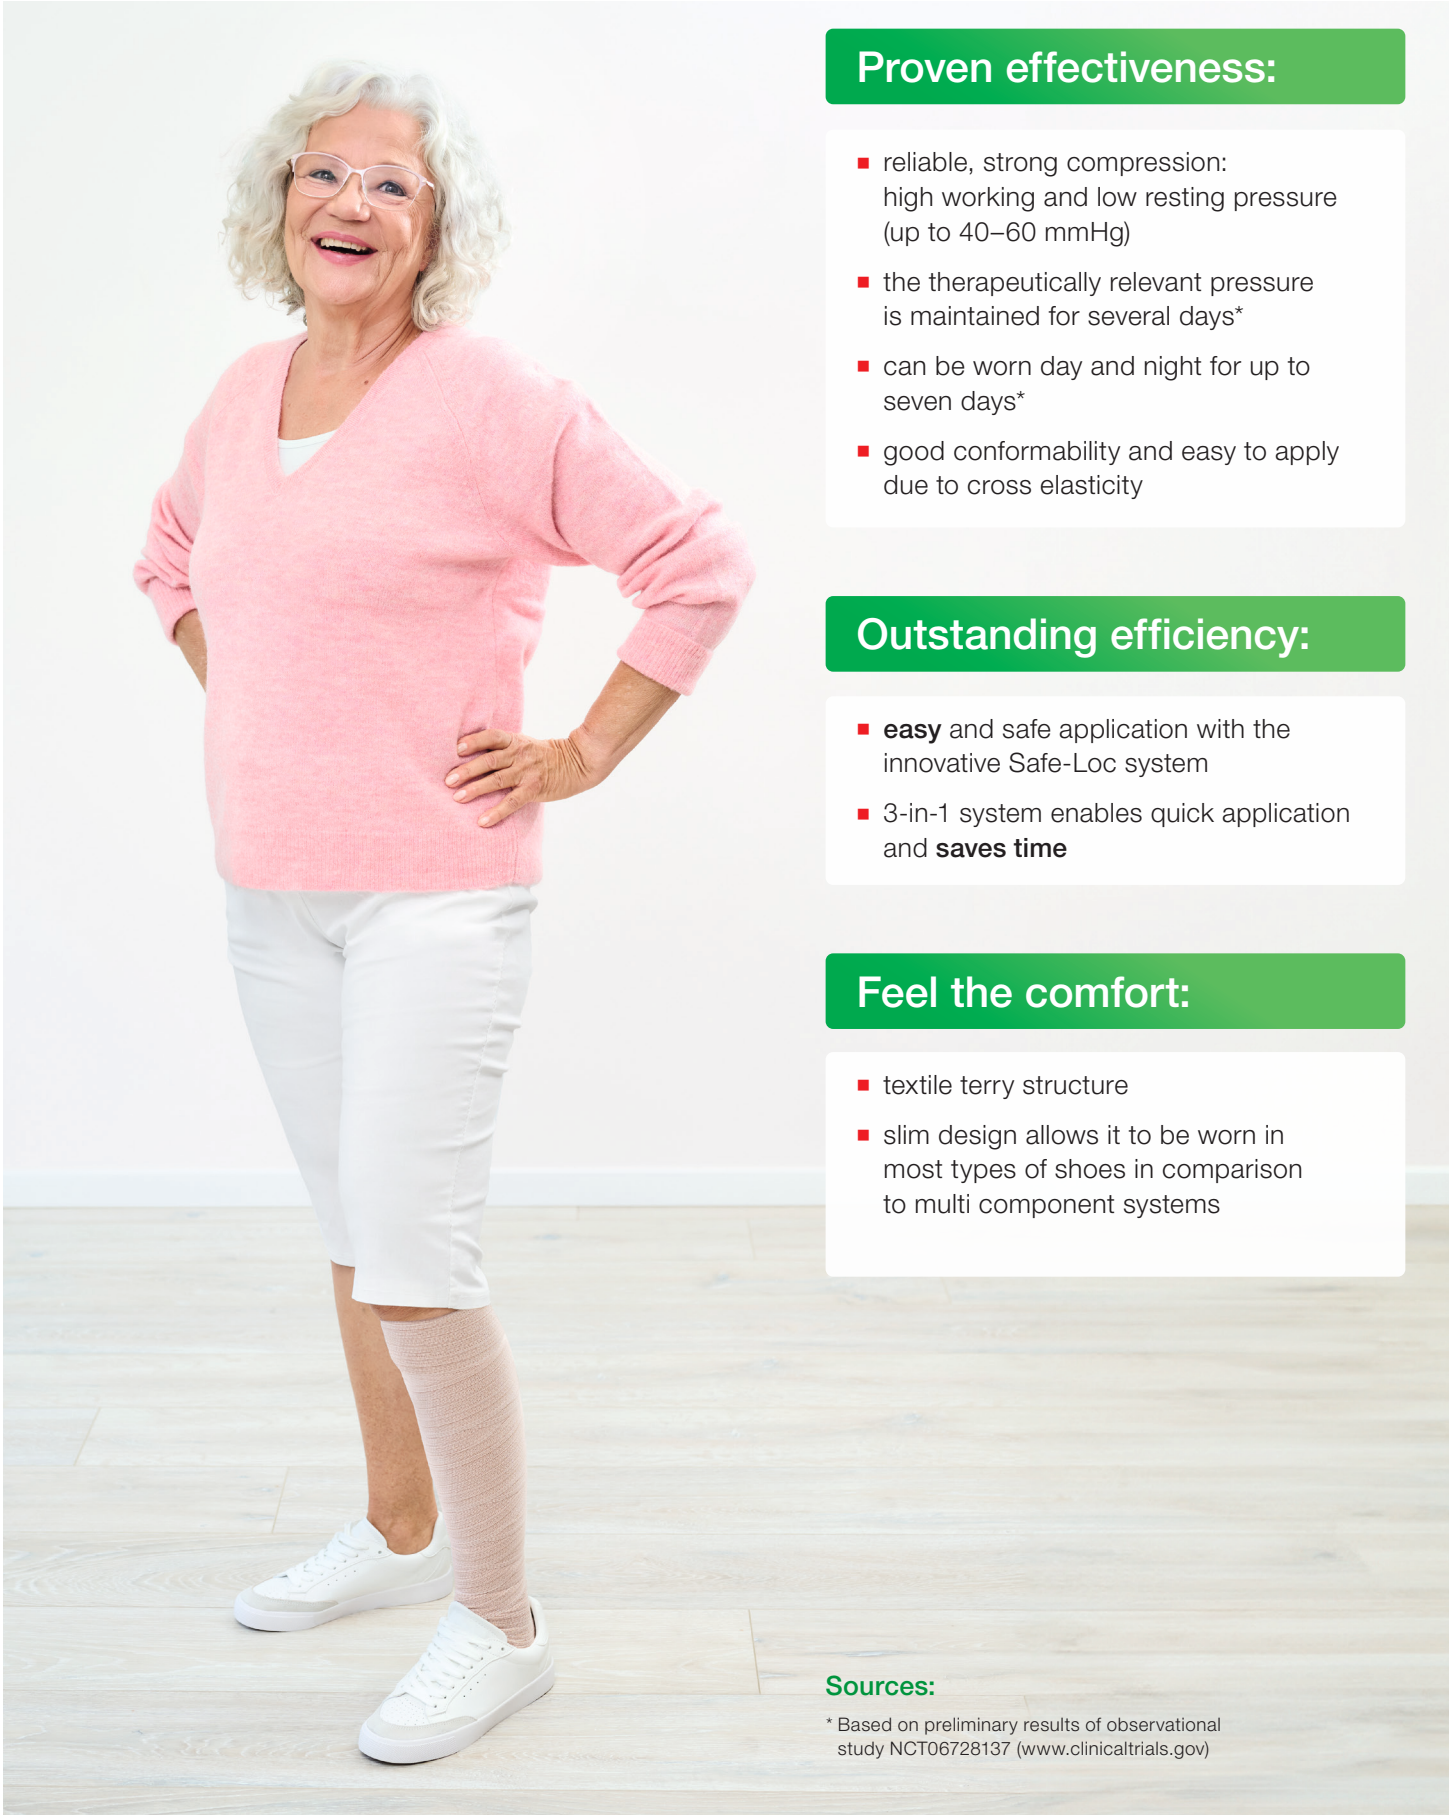

## The new, faster compression solution.

www.Lohmann-Rauscher.com

# Rosidal® 1C NEW

## The 3-in-1 short stretch bandage with skin layer, padding layer and compression layer.

### Proven effectiveness:

- reliable, strong compression: high working and low resting pressure (up to 40–60 mmHg)
- the therapeutically relevant pressure is maintained for several days*
- can be worn day and night for up to seven days*
- good conformability and easy to apply due to cross elasticity

### Outstanding efficiency:

- **easy** and safe application with the innovative Safe-Loc system
- 3-in-1 system enables quick application and **saves time**

### Feel the comfort:

- textile terry structure
- slim design allows it to be worn in most types of shoes in comparison to multi component systems

**Sources:**

* Based on preliminary results of observational study NCT06728137 (www.clinicaltrials.gov)

# Rosidal® 1C NEW

## Maximum benefit with just one short stretch bandage.

### Intended use:

For compression, retention of dressings, support and relief and for immobilisation of limbs.

### Indications:

- varicosis
- venous insufficiency
- thrombophlebitis
- phlebothrombosis
- post-thrombotic syndrome
- stage I to III b chronic venous insufficiency according to Widmer
- venous and mixed ulcers
- oedema (phleboedema, post-traumatic, post-operative, during pregnancy)
- after sclerotherapy and venous surgery
- contusions, sprains, tendon injuries and joint dislocations

Available in two widths:
**8 cm & 10 cm**

### Trust your strength with the Safe-Loc system:

pull to full stretch,
apply and you're done.

**The Safe-Loc system makes Rosidal 1C safe, quick and easy to use.**

TRIED & SAFE-LOC SYSTEM TESTED

- Rosidal 1C is applied at full stretch – with **full tension**

- it reduces overstretching of the bandage and excessive compression pressure, so is **very user-friendly and offers treatment safety**
- the bandage can improve blood flow in the venous blood vessels, promoting **successful treatment outcomes**
