A new day for custom compression.

Recapture your freedom to move.

L&R offers a comprehensive range of compression therapy solutions, featuring popular options such as ReadyWrap®, Tribute® Wrap, SwellSpots™, and Exo™. In addition to these, we offer custom product solutions to meet the unique needs of every patient.

Custom compression garments offer personalized therapy, incorporating individual patient needs for style, fit, functionality, and donning preferences in every garment.

Custom garments offer therapists unique tools to help support and treat their patients. Our Custom Design Center has been offering custom garment development services for over 25 years, helping hundreds of thousands of patients along the way. See how L&R can help your patients achieve their therapeutic goals with a custom garment.

Custom Design Center

Our complimentary Custom Design Center service is available to design a custom product to meet your patient's unique needs, supporting you and your patients every step of the way.

-  Measuring and ordering support
-  Recommendations on fit, style, and modifications
-  Considerations for all levels of patient presentation, mobility, and preference
-  100% custom garment design and manufacture
-  Warranty service
-  Manufacturing and service based in Milwaukee, WI, USA

Classic styling, comfortable to wear

Discreet design with specialized low-profile seams easily fits with everyday clothing.

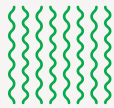

Customizable compression profile

Tailored for individual patient needs and sensitive areas.

Customizable compression

Fully customizable compression from 15 mmHg–49+ mmHg.

Micro-massage effect stimulates superficial tissue

Textured interior is aligned with lymphatic pathways. The garment works with movement.

Cost-effective and reimbursable

Garment and modifications are reimbursable under relevant daytime HCPCS codes to improve patient access.

Quality is guaranteed

Every Tribute™ Freedom garment is backed by our First Fit Guarantee.

Textured interior fabric intended to create pressure differentials and promote a micromassage-type effect.

Why choose Tribute™ Freedom?

Tribute™ Freedom supports easy self-care of lymphedema and edema by providing gradient compression with customizable compression profiles in a garment tailored to the patient's individual presentation.

Tribute Freedom's slim design is easy to don and its discreet appearance blends in with everyday clothing and footwear.

Indications

- Various stages of lymphedema
- Various stages of lipedema
- Edema

- 6-month warranty
- Easy garment care in washer and dryer
